Spanish, Argentine

PROFILE

Research-oriented macroeconomist with strong quantitative and data management skills. Experienced in macroeconomic modelling, ML/LLMs, nowcasting, panel econometrics, commodity markets, and geopolitical risk.

EDUCATION

Barcelona Graduate School of Economics (UPF and UAB) <i>MSc in Macroeconomic Policy and Financial Markets. GPA: 8.7/10</i> – Relevant modules: Macrofinance, Monetary Policy, Nowcasting, ML/LLM Forecasting.	Barcelona, Spain 09/2025 – 07/2026
Maastricht University (Honours Programme) <i>BSc in Economics and Business Economics. GPA: 4.0</i> – Honours programme: Real Estate Valuation, Private Law, Mathematical Statistics. – Advanced Macroeconomics (NK/Neoclassical), Panel Econometrics, Financial Economics.	Maastricht, Netherlands 07/2022 – 05/2025
SciencesPo Paris <i>Economics and Political Economy. Grade: 17/20</i> – European Policy, Urban Economics, Populism. Selected for LSE research exchange.	Paris, France 01/2025 – 05/2025

EXPERIENCE

London Politica (Program Director) <i>Directed Global Commodities Watch program</i> – Led team of 8 analysts; built macroeconomic surveillance databases for oil, gas, agricultural commodities. – Published flagship reports: "Small Modular Reactors", "BRICS Expansion", "EU-Mercosur". – Led research teams on geopolitical risk analysis in EMEA, Asia and LATAM, translating data into policy insights.	London, UK 06/2023 – 07/2025
London School of Economics (Invited Speaker) <i>Presented research on resource dependence and institutions</i> – Applied 2SLS and local projections in R/Python on 20+ oil exporters. Key result: corruption amplifies negative GDP impact of oil >4 times other institutional channels.	London, UK 07/2025
European Commission (Policy Proposal) <i>Designed agricultural reform for water stress in Cyprus</i> – Proposed price mechanism demonstrated commercial viability, supply chain risk mitigation, and cost-effective returns for water-stressed agricultural markets. – Pitched a quantifiable agricultural pilot to EU and Cyprus representatives during a competitive conference.	Brussels, Belgium 11/2024
United Nations – G77 Secretariat (Intern) <i>Assisted Group of 77 at UNIDO & IAEA</i> – Drafted high-level actionable policy briefs on energy security (IAEA) and industrial development; liaised with multi-stakeholder delegates from 10+ member states on energy transition. – Participated in discussions on global financial architecture and UN initiatives' impact on emerging markets.	Vienna, Austria 01/2020 – 02/2020
Argentine Embassy (Trade Intern) <i>Bilateral trade and market research</i> – Built Excel databases tracking agricultural (soybeans, corn) and energy (oil, gas) trade flows between Argentina and Central European markets for client-facing reports. – Quantified export opportunities adopted by embassy; acted as intermediary connecting suppliers with importers.	Vienna, Austria 01/2020 – 02/2020

SELECTED PROJECTS

Institutions and Oil Shocks: Sovereign CDS & EM Investment Risk – Identified institutional thresholds determining sovereign credit risk and capital market access during oil-supply shocks (Kanzig). Derived EM fuel import vulnerability framework predicting sovereign CDS spreads.
Nowcasting with Mixed-Frequency & Commodity Data – Nowcast Australian GDP using commodity-augmented Dynamic Factor Model, incorporating commodity export data, sentiment and leading indicators to improve forecast. Factor achieves 96% correlation with observed growth.

TECHNICAL SKILLS

Software & Methods: Python, R, Matlab, Stata, Excel, Dynare, SQL, PowerBI
Econometric Methods: Panel data, SVAR, dynamic factor, MIDAS, DSGE, Bayesian estimation, threshold models
Languages: English (native), Spanish (native), Portuguese (fluent), French (B1), German (A2)
